

HOW TO DOWNLOAD COURSE MATERIALS FROM SULMS?

After login choose your course and click on folder icon as shown in the picture below

The screenshot shows a user interface for a course. On the left, there is a vertical orange bar with the text "hide and show". The main content area contains a message from Reza Farzipoor Saen dated June 2020, followed by "DRL Instructions" and "DRL Course Feedback". Below these are several task folders: "Task 1: Successfully developing Process chart and Pareto chart", "Task 2: Capacity Estimation and Monte Carlo Simulation", and "Task 3: Time Study Method and Learning Curve". Under Task 3, there are items for "Task 3-Description", "Key Materials" (with a hand cursor icon pointing to it), and "Supplementary Materials-Time Study Method". On the right, a navigation menu is open, showing options like "Competencies", "Grades", "General", and "Task 1: Successfully developing Process chart and ...". A vertical orange bar on the right side contains icons for home, search, and other navigation functions.

Click as picture shown below to download materials to your device

This screenshot shows the "Key Materials" section of the course dashboard. It lists two files: "Learning Curve.pptx" and "Time Study Method.pptx". Below the list is a red "Download folder" button with a folder icon. A hand cursor icon is shown clicking on this button. The interface includes a top navigation bar with "My courses" and "My bookmarks", a breadcrumb trail "Dashboard > My courses > BUMG3107-2019S2 > Task 3: Time Study Method and Learning Curve > Key Materials", and a "Navigation" sidebar on the right with a tree view of the course structure. A vertical orange bar on the right side contains navigation icons.
