

Staff Professional Development Master Plan

Academic Year 2025-2026

Sohar University recognises its responsibility to enhance opportunities for both academic and support service staff to develop their skills and abilities, thereby improving personal performance, advancing careers, and making greater contributions to the University.

The Staff Development plan aims to provide Sohar University staff with opportunities for professional growth. Aligned with the University's Strategic Plan, which emphasises the development of human capital and institutional excellence, the staff development section in HRD offers a variety of activities through the Staff Development Program. These activities are designed to support both the professional and personal development of SU faculty and staff. The activities are categorised into specific development areas. Please review the learning opportunities in each category to identify the program(s) that will best support your professional growth.

This comprehensive plan is designed to cultivate a culture of continuous learning, collaboration, and adaptability within Sohar University. Through a strategic blend of training initiatives, mentorship programs, and exposure to cutting-edge tools and methodologies, we aim to unleash the full potential of our professionals. Our commitment to staff development not only enhances

individual career paths but also directly contributes to the University's overall success. Additionally, Staff Development provides some tailored professional development opportunities to Omani staff to ensure their ongoing development and retention.

This academic year (2025-2026), the plan will offer a variety of workshops for all staff. All these workshops will take place at Sohar University. Below is a list of activities offered during the AY. Each activity will be announced separately, and targeted staff will be requested to register at that time.

Note

*Staff individual plans, based on staff appraisals, are developed in accordance with professional training needs.

**Some of the courses below may be conducted online through the official virtual platforms. **

Staff Development Section Activities:				
Administrative and Interpersonal Skills				
Workshop/Training Title	Targeted Staff	Facilitator		
Official Report Writing	Admin Staff	SD
